

Print-self

Print-self

Do it yourself kits . . .

Rayfilm PRINT-SELF is a retail oriented range of DO-IT-YOURSELF kits to do personalized printing jobs. All products are supported by original free-downloadable software 'Rayfilm-Printer'. Our aim is to supply easy-to-use products that everybody can use at home.

The PRINT-SELF product range is packed in professional colour packs with a Euro Slot. Their attractive look attracts attention and is fully ready for self-service retail.

CD/ DVD-labels

A perfectly designed label gives a CD/ DVD a professional look with a personal touch. A precise label placement is very easy, all you need to use is a standard plastic CD-jewel case.

CD-labels are made of either matte or glossy inkjet coated photopaper or glossy coated laser paper.

Photoalbums

A Photo-Album kit gives you the possibility to print and bind selected photographs. Everybody enjoys their own album with a professional look of unique snaps.

The photoalbum kit helps to create a booklet of 25 photos or presentation sheets. We produce the sheets of matte or glossy inkjet photopaper.

The sheets of photopaper are perforated so that you could bind them together using the rings and the cover that is also in the kit. You can choose either 10 x 15 cm or A4 kit.

Calendars

Printing a calendar of your photographs is a piece of your creativity, this will make a pleasurable atmosphere for your home or office. An individual calendar, full of holiday memories and unforgettable moments can be an original gift for everybody to enjoy.

The calendar kit consists of 13 perforated sheets of photopaper, a plastic hook and a binding element. There are 2 photocalendar types – a flippable one with a binding spiral and the calendar with rings enabling easy sheet removal. We produce both A4 and A3 formats, which can be matte or glossy finished. Creating the calendar look is very easy – you use our free software Rayfilm Printer, define all calendar parameters and import your favourite pictures.
